# 2<sup>nd</sup> Prize: Scholarships for Training & Sarcoma Research

Fundación Mari Paz Jiménez Casado (FMPJC) supports an annual project to promote development of sarcoma treatment and prevention measures by granting scholarships in three critical areas: Academic Training, Clinical Training, and Research.

The scholarships are funded through direct donations and fundraising events. Volunteers oversee the program.

## Achievements

Below is a summary of each of the three scholarship areas and the awards granted:

### Academic Training – 6 Scholarships

4 Scholarships for the IV Master of Sarcoma Course 2022 at the European University and GEIS.

1 prize for best final results in the IV Master in Sarcomas

1 prize for the Best exam of the XV Advanced Sarcoma Course of GEIS.

1 Course of Oncology Nursing in Sarcomas at H.U La FE in Valencia

1 Annual Fellowship in Orthopedic Oncological Surgery

### Clinical Training – 4 Scholarships

6-month clinical medical rotation on sarcomas in the International Reference Center

2-month clinical rotation of oncology nursing in sarcomas

1 scholarship for International Medical Observer

1 clinical fellowship in orthopaedic oncological surgery

### Research Training – 2 Scholarships

Partial Funding XVI J Ma Buesa (GEIS).

"Targeted kinase inhibition and immune response in gastrointestinal stromal tumour (GIST): It takes two to tango"

Orthopedic Oncological Surgery and research improvement in bone and soft tissue sarcomas surgery.

### What was the primary value to Sarcoma patients?

To improve the lack of scientific knowledge on sarcomas and the economic limitations of patients by raising general awareness about sarcoma and supporting patients, family members and physicians.
