

# THE INTERNATIONAL LMS RESEARCH ROUNDTABLE

TO ADVANCE BASIC AND TRANSLATIONAL  
RESEARCH FOR LEIOMYOSARCOMA

In 2019, the National Leiomyosarcoma Foundation and the Sarcoma Patient Advocacy Global Network (SPAGN, previously SPAEN) came together in a collaborative partnership to advance basic and translational research for Leiomyosarcoma.

## CURRENT WORKGROUPS

- LMS Cell Lines / PDX Models & Multiomics
- Gynecological / STUMP
- Clinical Trials Assessment
- Imaging Strategies & Radiomics

Interested Roundtable members are encouraged and welcome to participate in any of the following workgroups to support the goals of each.

## GOOD TO KNOW

- The NLMSF – SPAGN International LMS Research Roundtable has a physician scientist membership level of 140 and growing.
- The NATIONAL LEIOMYOSARCOMA FOUNDATION annually funds LMS specific research projects through a strict vetting process of the Foundation's Executive Committee, with corollary research studies and Roundtable workgroup funding support as well.
