Making It Better for Kids with Osteosarcoma

OUR MISSION MIB Agents Osteosarcoma Alliance is a leading pediatric osteosarcoma nonprofit dedicated to making it better for our community of patients, families, medical professionals, researchers, and industry partners through programs, education, and research.

PROGRAMS

Warrior Mail
OsteoWarriors receive monthly letters of hope and cheer from MIB Agent Writers around the world.

Ambassador Agents
Connects osteosarcoma patients and families to trained osteosarcoma survivors and their families for mentorship and support.

Gamer Agents
Lead Gamer Agents are trained to game with warriors in active treatment, connecting a community of OsteoWarriors and siblings.

osTEAo
A monthly podcast by OsteoWarriors who spill the tea on living with cancer as an AYA.

Missions
When an OsteoWarrior transitions to hospice care, MIB Agents provides an experience or an item of comfort and entertainment.

Healing Hearts
Support groups led by a professional grief coach for bereaved parents who need a haven of love and comfort along with the hope of healing.

Gamer Agents Program

EDUCATION

OS Handbook
Written by families and edited by osteosarcoma experts, this is a must-have resource for newly diagnosed patients. Available in English, Spanish, and Chinese.

OsteoBites
A weekly webinar series featuring the leaders in osteosarcoma research and other topics of interest to the osteosarcoma community.

TURBO
A bi-monthly virtual tumor review board for osteosarcoma, open to global clinicians and researchers. TURBO provides an educational forum and fosters collaboration.

Connective Issue
A monthly roundup of all things osteosarcoma, including recent papers, open clinical trials, and spotlight moments with OS people and labs, delivered straight to your inbox.

OsteoBites Webinar Series

RESEARCH

Research Grants
$2.9M awarded since 2017

37 PIs supported

Since 2017, MIB Agents has awarded US$2.9 million to support osteosarcoma research through our OutSmarting Osteosarcoma grant program.

CURE-OS
CURE-OS is an international working group dedicated to advancing osteosarcoma single cell research toward improving the care of OS patients.

Research Bees
Through facilitated discussions, individual interviews, focus groups, surveys, and other forms of engagement, Research Bees are designed to make patient participation in research development accessible, meaningful, respectful, and impactful.
