

SPAGN Conference Participant Profile

Name: Lucia Manzinello

Organisation: Synovial Sarcoma Foundation

Role / Stakeholder Type: Board Member

Country: Italy

What is your connection to sarcoma or your sarcoma story?

I was the caregiver for my 15-year-old daughter Teresa, who was diagnosed with synovial sarcoma. Teresa participated in a phase 1 immunotherapy trial. Teresa is now deceased. My husband is undergoing follow-up treatment with another type of sarcoma.

What's most important to know about your organization?

Bringing patients and caregivers together and fostering a synovial sarcoma community. Promoting data-driven policies and bioregistry and access to cutting-edge clinical trials.

What are you most interested in collaborating on?

Research, Awareness, Innovation, European Biobank Registry of Sarcoma Patients.

Your role in the organisation and main areas of involvement:

Volunteer member of the foundation. My role is to communicate, connect, and raise awareness about synovial sarcoma in Europe and Italy.

How can others best connect with you after the conference?

lucia@synovialsarcoma.org

One fun fact about you or something you are proud of:

I recently walked the entire Camino de Santiago (Spain), the French Way, all the way to the ocean.
